London market for American stocks was reported owing to the liquidation there of a heavy speculative account. At all events, prices showed declines which, in some instances, extended to two points, particularly in the foreign listed sharer.

Contrary to expectations, the Bank of England made no advance in its minimum rate of discount. Foreign houses sold heavily upon the opening of business here and the local sentiment seemed to be still greatly confused as a result of vesterday's greatly confused as a result of yesterday's

extraordinary incidents. Brooklyn Rapid Transit was naturally the centre of interest this morning and the stock was heavily dea't in, but showed a comparatively steady tone. There was nothing more definite than yesterday's rumors to account for its course. Other active features were the Pacific stocks, the granger shares, and New York Central, the latter being particularly firm. Man-hattan was active and feverish, and the dealings throughout the market were characterized by great irregularity.

A STATE OF THE STA				

The steady and strong advance has not yet begun in the market apparently. Lon-don is in need of gold from this country, and although the Bank of Eng.and discount rate was not increased, as was generally expected this morning, it is certain that large amounts of the precious metal will be sent this week. This fact, despite the improved conditions financially on this side, prevents many bullishly inclined people from venturing as yet on the long side of the market. It cannot be doubted, moreover, that there is general fear of further British reverses in South Africa, and that the bears are aided in their effo.t by these possibilities. Prices this morning opened off somewhat on London selling of American securities and on a count of the weakness in Sugar and Brooklyn Rapid Transit yesterday afternoon. There was a somewhat widespread fear that the atacks on these stocks migat be continued A feverish and erratic market, a traders' situation that the time has arrived for conservative purchases, either for investment or for speculation. The Farine securities, the Vanderbilts, and even the grangers are all selling much be aw their intrinsic value, and must in the nature of things advance handsomely as soon as money becomes easier.

money becomes coster.

Talk of important developments regarding the Baitimore and Ohio is heard. It is histed that the Baitimore and Ohio translated that the Baitimore and Ohio translated that is under active consideration may be announced at any time.

case of acute stomach trouble and chronic dyspepsia by the use of the new discovery. Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered, to my knowledge, years with dyspepsia. Everything he ate seemed to sour and create gases in the stomach. He had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after cuting, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

night.

"I gave him powerful nerve tonics and blood remedics, but to no purpose. As an experiment I finally bought a 50 cent package of Stuart's Dyspepsia Tablets at a drug stere and gave them to aim. Almost immediate relief was given and after he had used four boxes he was to all appearances fully cured.

"There was no more acidity or sour, watery risings," no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, heaithy flesh.
